

# Business Development

# Company Background

A national logistics company, **FastFleet Logistics**, provides package delivery and supply chain services for retail and manufacturing companies across the U.S. With rising competition and growing customer expectations, the company is aiming to **optimize delivery performance, identify bottlenecks, and improve service quality** using data analytics.

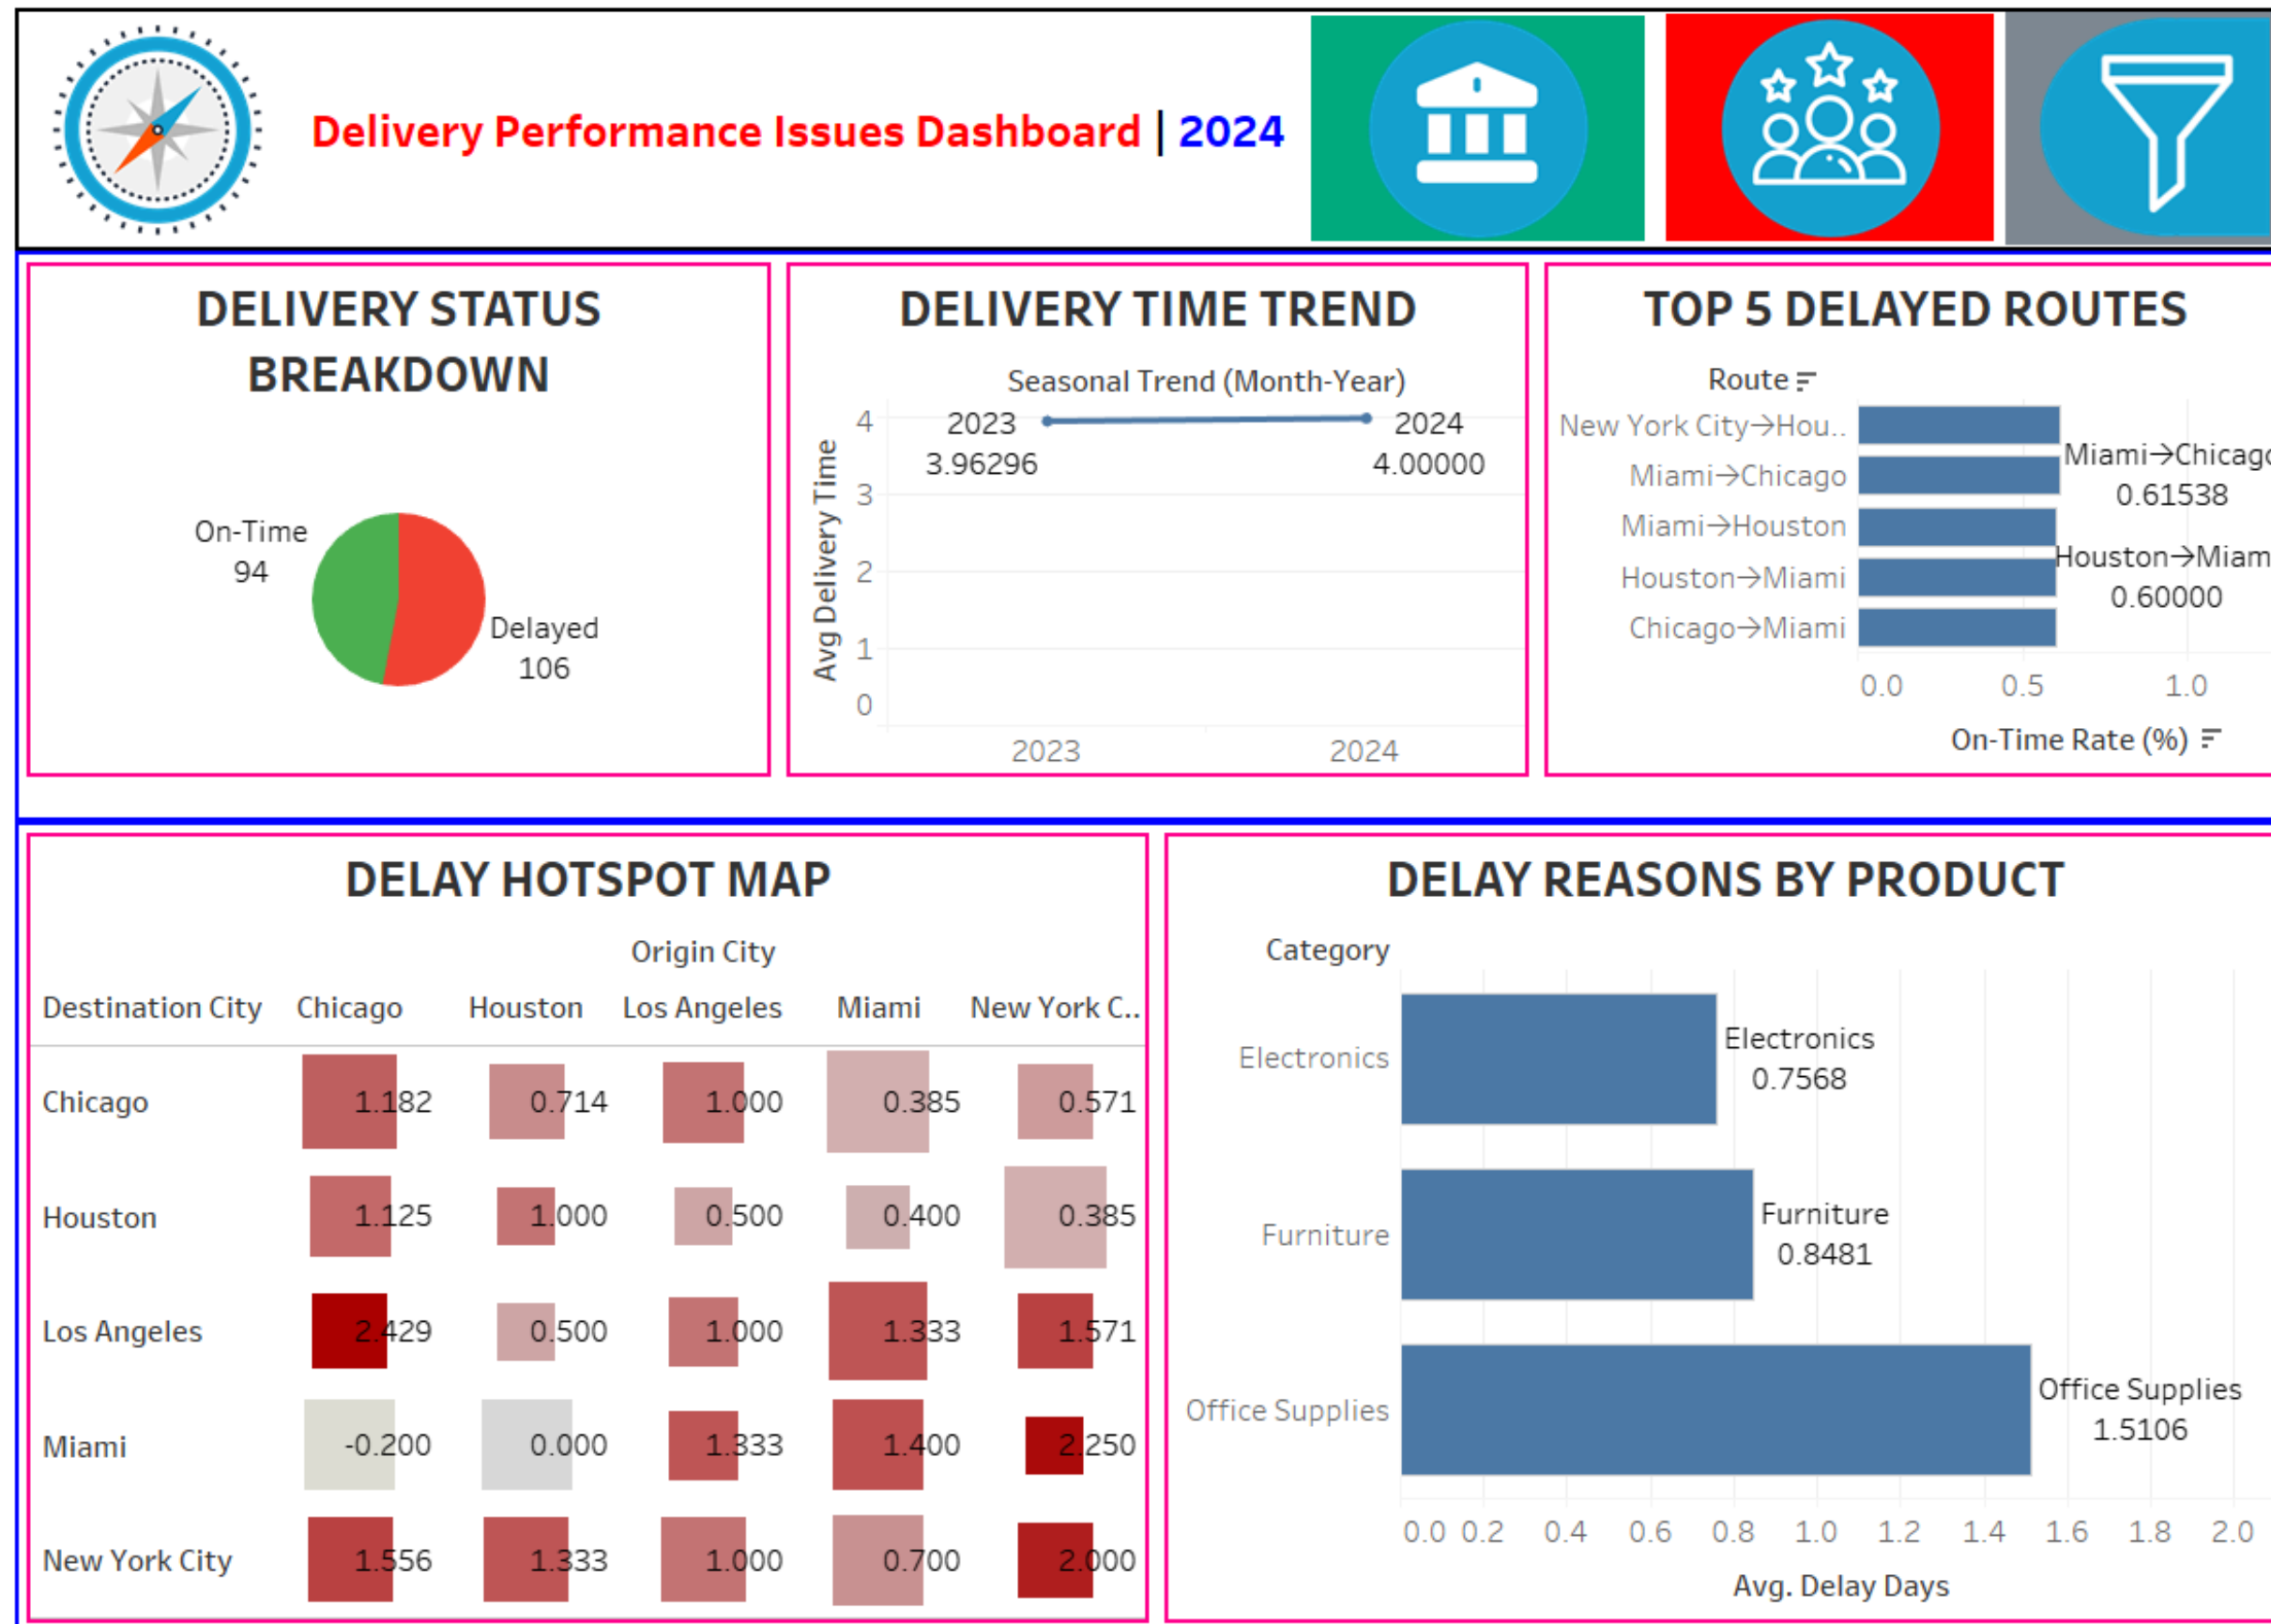

# Project Objective

- **Monitor delivery performance**
- **Analyze shipment trends by region, customer and product type**
  - Identify delays and inefficiencies in the supply chain**
- **Make data-driven decisions to enhance delivery efficiency**

**Customer Insights & Product Challenges Dashboard | 2024**

**CUSTOMER SEGMENT  
PERFORMANCE**

**SHIPMENTS BY CATEGORY**

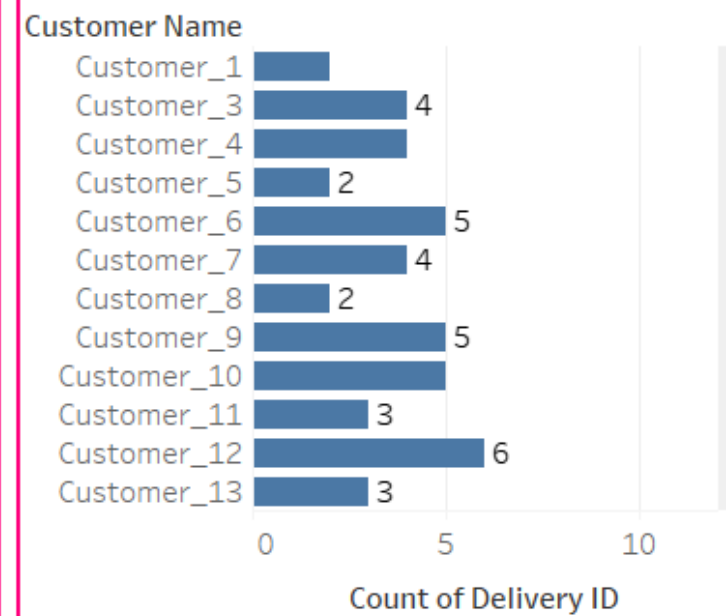

**DELIVERY ISSUES BY  
HANDLING TYPE**

**CUSTOMER PROFITABILITY  
MATRIX**

**TOP CUSTOMERS BY  
SHIPMENTS**

**MOST PROBLEMATIC  
PRODUCTS**

## OPERATIONAL TRENDS Dashboard | 2024

### WEEKLY SHIPMENT VOLUME

### MONTHLY SHIPMENT VOLUME

### SHIPMENT WEIGHT DISTRIBUTION

### DELAY TRENDS BY REGION

### COST VS PROFIT BY SHIPMENT WEIGHT

### DELAY TRENDS BY STATE

### COST VS PROFIT BY PRODUCT NAME

# Outline of Dashboards

## ● Sales Performance Overview

1. Delivery Status Breakdown
2. Delivery Time Trend
3. Top 5 Delayed Routes
4. Delay Hotspot Map
5. Delay Reasons by Product

## ● Customer & Product

1. Customer Segment Performance
2. Shipments by Category
3. Delivery Issue by Handling Type
4. Customer Profitability Matrix
5. Top Customers by Shipments
6. Most Problematic Products

## ● Operational Trends

1. Weekly Shipment Volume
2. Monthly Shipment volume
3. Shipment Weight Distribution
4. Delay Trends by Region
5. Cost vs Shipment Weight
6. Delay Trends by State
7. Cost vs Profit by Product name

# Conclusion

- ✓ Monitor KPIs like average delivery time, delay %, and profitability
- ✓ Identify regional delay hotspots and inefficient routes
- ✓ Analyze trends by customer, product, and shipment type
- ✓ Make data-driven decisions to optimize operations and improve service quality
